Duties: Your duties will include serving as a calibration technician at the secondary reference laboratory specializing in calibration with responsibility for conducting technical audits of secondary reference standards to ensure accuracy, recommending new calibration test and inspection standards, and providing certification of secondary reference and transfer standards used by the Area Calibration Laboratory (ACL). You will certify standards for Transfer Level Calibration Laboratories and Test Measurement and Diagnostic Equipment (TMDE) from field activities. Calibrate and certify a wide variety of precision TMDE/instrumentation of commercial and special design utilized by transfer level calibration facilities. Make improvements in fielded standards and procedures to meet new requirements. Record data, plot curves, and compute correction factors to assure precise calibration of TMDE and standards. Design test setups and validate results; perform repairs and modifications to TMDE.

About the Position: The US Army TMDE Support Center-Tobyhanna is one of the largest TMDE Support centers in the Army. The center is located at Tobyhanna Army Depot, PA. It consists of two laboratories; an Area Calibration Lab that provides reference level support and an Internal Calibration Lab that provides transfer level support. The center has 40 employees that include management, technical and administrative positions. The centers mission is to provide one-stop TMDE support for Army, Army Reserve, National Guard, Marine Reserve and other federal and state government customers in the assigned geographical area that covers NE Pennsylvania, New York, New Jersey and New England states.
